OrderSmart™ Release Notes

02 July 2015

OrderSmart

Requisition Form – Added Date of Service

For all users added support to print the scheduled date of service on the requisition form under “Date of Service” field.

Fax Document Type Configuration

For Admin users, improved configuration screens for Fax Document Type Content Selection to view enabled document types.

Order Expiration Display

For all users, added support to show order expiration date on:

- Requisition form, below Order Date
- Authorization Tab, Service Information, below Reason for Request
- Scheduling Tab, below Patient Class
- Fax indexing below Patient Class
- Orders Workqueue configure columns

Resolved Scheduled Date/Time Display in Workqueue

For all users added support to populate scheduled date and time in Date/Time of service column in the workqueue.

FaxSmart

Fax Split Function

Added ability to split fax documents after new fax indexing.

The screenshot displays the OrderSmart web application interface. On the left, there is a control panel with fields for Facility (St Hope Lab Services), Document Type (Fax Order), Patient (Test, Grey (06/02/2015, M)), Physician (Test, Physician), and Physician Office (Test Physician Office). Below this are buttons for 'Copy' and 'Split', and a 'Select Case' button. The main area shows a 'RADIOLOGY OUTPATIENT REQUISITION' form for ST. HOPE HOSPITAL. The form includes patient information (Name: WILLIAMS, CLARE; DOB: 9/23/1962; Sex: M; Race: W; Address: 505 ROBERTSON RD, P.O. BOX 21022, MEMPHIS, TN 38101-0202; Phone: 901-553-6052) and exam details (Exam: 9206, Appr Date: 06/16/2015, Appr Time: 12:00 PM, Referring Physician: JED L LANE, Ref ID: 415678912). The form is divided into sections: BONE DENSITY, CONVENTIONAL RADIOLOGY, and NUCLEAR MEDICINE. Each section contains a list of services with checkboxes for selection. For example, under CONVENTIONAL RADIOLOGY, there are options for 'Chest', 'PA and Lateral', 'Ribs', 'Ribs and PA Chest', 'Abdomen-AP/PA', 'Acute Abdominal Series', 'Abdomen Supine and Erect', 'KUB', 'Spine', 'Thoracic Spine', and 'Lumbar Spine'. The interface also shows a 'Scheduling' section with a dropdown for 'Destination Department(s)' and buttons for 'Back', 'Save', 'Complete', 'Create Order', and 'Send Fax'.

Add Split Button

Added "Add Split" button in fax split page.

The screenshot shows the 'Split Fax Pages' dialog box in the PASSPORT Order Smart system. The dialog has a 'DocumentType' dropdown set to 'Fax Order' and a 'Pages' section with three page ranges: 'Page from 1 to 1', 'Page from 2 to 2', and 'Page from 3 to 3'. A red arrow points to the 'Add Split' button at the bottom of the dialog. The background shows the 'MRI & CT RADIOLOGY OUTPATIENT REQUISITION' form for patient WASHINGTON, LANCE, with fields for patient information, order information, and required laboratory tests.

Add Copy Fax

For fax users, added the ability to Copy fax document from indexing page.

The screenshot shows the 'Indexing' page in the PASSPORT Order Smart system. A red arrow points to a 'Copy' button. A red circle highlights the checkbox 'Make a Document copy and attach to the Case'. The background shows the 'MRI & CT RADIOLOGY OUTPATIENT REQUISITION' form, which is identical to the one in the previous screenshot.

This copy button is in addition to existing copy feature "Make a Document copy and attach to the Case" functionality when users would like to create multiple orders from a single fax document or for patient level documents like driving license/insurance card etc., where the same fax can be attached to multiple cases. When you click the checkbox and save, you will see a duplicate row on the work queue which can be worked independently of each other.
