

UNITEDHEALTHCARE SYSTEM NOTIFICATION

Date: 12/22/15

Effective Dec. 30, 2015, UnitedHealthcare will apply additional HIPAA edits to professional (837P) and institutional (837I) claims submitted electronically to most UnitedHealthcare and affiliate [payer IDs](#).^{*} Based on ANSI X12 TR3 compliance regulations, WEDI SNIP Types indicated below will be enhanced at a pre-adjudication level during HIPAA validation:

WEDI SNIP Type*	Claredi EDI Number	Edit Description	Claim Type	
			837P	837I
1	H11615	Segment terminator detected in element contents	X	
2	H20622	Value does not match the format for a UPIN	X	X
2	H25584	Group or Policy Number (2000B SBR03) and (2320 SBR03) cannot be "None" or 'none'	X	X
2	H25658	At least three External Cause of Injury Codes must be present to fully describe the injury		X
2	H25659	Gaps not allowed between Patient Reason for Visit Codes		X
2	H25650	Gaps not allowed between External Cause of Injury Codes (2300 HI03 through HI12)		X
4	H46541	Present on Admission Indicator for inpatient claims is required		X
4	H46544	EPSDT Referral Information must be present when a screening service is billed	X	
4	H46546	Supervising Provider (2310D) cannot be the same as the Rendering Provider at the claim level (2310B) or the service line level (2420D/2420A)	X	X

Because the new edits will be applied on a pre-adjudication basis, an increase in the number of claim rejections may occur. This will enable UnitedHealthcare claim submitters to identify and correct rejected information prior to the claim's acceptance into our adjudication system for processing. The benefit for providers will be fewer denied claims and less interruption to revenue streams.

Please encourage your users to check claim submission reports on a regular basis and in a timely manner. They can view [tracking your electronic claims](#) to learn more about electronic reports and rejections.
